

EASYFLOW HORIZONTAL BEND 90°

DESCRIPTION

The Vasco air duct system EasyFlow, together with Vasco ventilation, assures a unique low-noise ventilation system. A limited number of parts and a smart logistical concept guarantee easy, worry-free installation. The Vasco EasyFlow air ducts are made of durable HDPE. Mounting can be done quickly, easily and flexibly. The 90° horizontal bend makes the EasyFlow system even more flexible. This thanks to its small radius, and the possibility of applying it in 3 different lengths.

- Includes rubber gasket (if the bend is shortened, move the rubber gasket)
- Packaged by 3
- Material: HDPE (High Density Polyethylene)
- Includes 1 mounting bracket / horizontal bend
- Airtightness class in accordance with NEN-EN 1507 & NEN-EN 12237: D

TECHNICAL DATA

Pressure loss through horizontal bend 90°, supply air

Pressure loss through horizontal bend 90°, exhaust air
