

EASYFLOW PLENUM 4 CONNECTIONS

DESCRIPTION

The Vasco air duct system EasyFlow, together with Vasco ventilation, assures a unique low-noise ventilation system. A limited number of parts and a smart logistical concept guarantee easy, worry-free installation. The Vasco EasyFlow air ducts are made of durable HDPE. Mounting can be done quickly, easily and flexibly.

The plenum has 4 connections to which one can attach the air ducts of the EasyFlow ventilation system. These connections are delivered closed and must be opened with a box cutter.

- Connection diameter Ø 125 mm
- Packaged by 2
- Material: HDPE (High Density Polyethylene)
- Airtightness class in accordance with NEN-EN 1507 & NEN-EN 12237: D
