

EASYFLOW STRAIGHT VALVE CONNECTOR

DESCRIPTION

The Vasco air duct system EasyFlow, together with Vasco ventilation, assures a unique low-noise ventilation system. A limited number of parts and a smart logistical concept guarantee easy, worry-free installation. The Vasco EasyFlow air ducts are made of durable HDPE. Mounting can be done quickly, easily and flexibly.

You can connect a supply or exhaust valve of Ø 125 mm to the straight valve connector. The valve connector is equipped with a rubber gasket.

- Comes in a package of 2 or 5 pieces
- Material: HDPE (High Density Polyethylene)
- Includes 1 mounting bracket / straight valve connector
- Airtightness class in accordance with NEN-EN 1507 & NEN-EN 12237: D
