

ROOF TILE

DESCRIPTION

The Vasco insulated air ducts and accessories, together with the other Vasco ventilation products, assure a unique low-noise ventilation system. The insulated parts were developed to meet the ever more stringent requirements for thermal insulation and noise level in living spaces that are set for air-technical installations with heat recovery. These insulated parts must be applied to the outdoor connection of the ventilation system.

The Vasco adjustable roof tile must be applied in order to install a roof feed-through on a pitched roof. The roof tile is produced from an alternative lead-free material, and is always delivered with hinge cover.

TECHNICAL DATA

Colour	Black
Adjustable slope	25° to 55°
Suitable for air duct	Ø200/170 mm
	Ø160/125 mm

SCALE 1:2

Dimensions in mm
